

MENOX – Installation Highlight #4

Pre-Installation Review

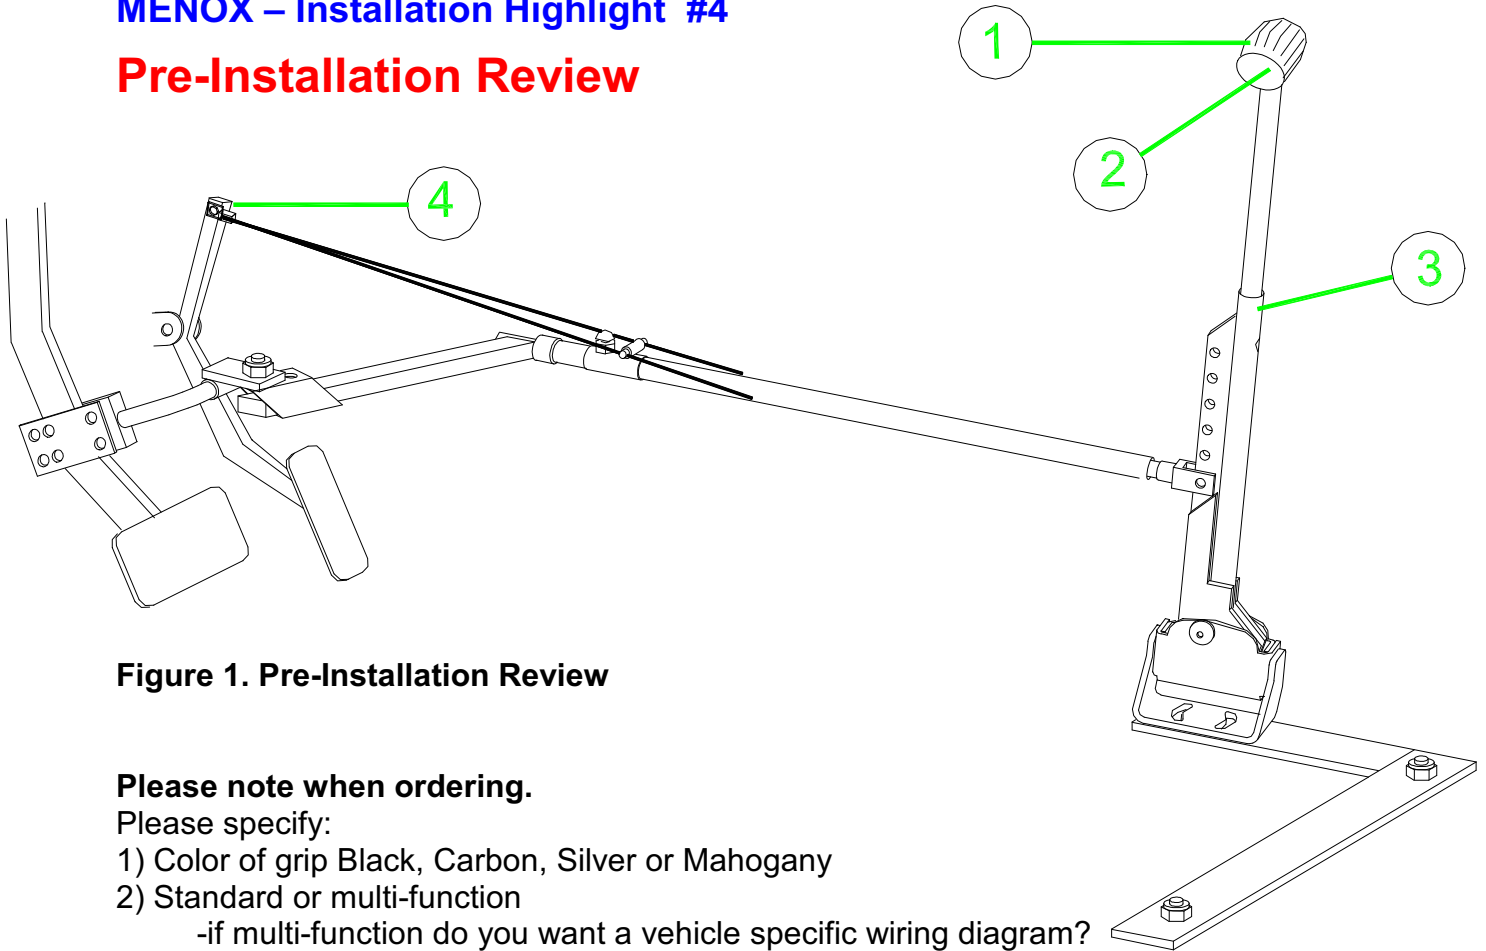

Figure 1. Pre-Installation Review

Please note when ordering.

Please specify:

- 1) Color of grip Black, Carbon, Silver or Mahogany
- 2) Standard or multi-function
 - if multi-function do you want a vehicle specific wiring diagram?
 - if so, provide year, make, model and VIN # (required).
 - does the driver have any special need for the position or operation of the functions on the grip?
- 3) Covers - if so what color? Beige, Black, Light Gray, Dark Gray.
- 4) Do you need a Steering Knob? Color? Shape?

Notes for installation:

- 4) Check out accelerator pedal on vehicle. Is there clearance for the throttle rods or wire rope assembly? Does it need a throttle cable assembly? Does a bracket need to be adapted to the pedal? See figure 14 of instructions.
- 5) Position driver in seat and mark position so Menox can be position for the best range of motion for that seat position. Does this position impact second driver?
- 6) Be able to provide solid mounting through the floor(if that option used). Remove any padding, etc. Use adequate large washers to distribute load on underside of floor.
- 7) Provide adequate clearance for grip while braking. (See figure 2). No interference with dash.
